

YOUTH WITH EXPERIMENTATION

Youth experiment sometimes with smoking, taking drugs, kissing, caressing, sex, etc.

Many youth these days are involved in experimentation with sex to:

- Discover how it feels like
- To fit in a group
- To get an identity
- Show love
- Have fun with one another
- Means to put down their sexual desires
- Alternative to not having sex

What may youth think?

- It is not wrong it is just discovery
- It is not dangerous
- Safe than having sex if it is kissing and caressing
- Acceptable between friends

Facts

Experimentation is so dangerous;

It is a step to getting bad habits and additions that will destroy your future. It could lead to rape

- It could lead to having sex
- Crisis pregnancy and other consequences
- Regret and shame
- Loss of friendship
- Guilt
- Un-forgiveness

Way out

Make a choice not to experiment on anything that you know is destructive to you and your future.

Prayer: Dear Lord, help me from today onwards to control myself from experimentation of different destructive things. Today I pledge to use my body to the Glory of your name. Amen.
