1. INTRODUCTION

Youth For Christ Uganda has existed for the last 26 years with a vision for reaching young people with the Gospel, Love, Education and Compassion of Jesus Christ. One of our Projects called Suubi Training Centre, has been providing vocational education to young mothers for six years through which 71 have graduated and experienced holistic transformation.

The Organization shifted to a new location located in Kibungo Matugga, from Martin Road Plot 20, Old Kampala and in addition shifted the trade school too where we formally housed and educated 12 teenage mothers a year. We therefore have a need to build a Training Centre for primarily young mothers and youth in the community. The need is still great in Uganda for trade skills and in the area of Wakiso we are serving in because there are many school drop outs who will benefit from our services.

2. PROJECT

The project aims at building a Training Centre for primarily young mothers and youth in the community. Teenage mothers and youth in Gombe Division are prone to early marriages, recurring teenage pregnancies, poverty, dysfunctional relationships, abuse of substances and other harmful behaviors which will address. The Centre will be a place where holistic needs of the students will be meet especially. The project targets teenagers and young adults between 13- 25 years old.

3. OUR VISION AND OBJECTIVES

To empower young mothers and vulnerable youths with vocational skills and in addition encourage character development, spiritual growth to enable them to become self-reliant.

Objectives:

- Empower young mothers and vulnerable youths to make positive decisions about their lives.
- Promote self-reliance among young mothers through skills attainment and job creation.
- Improve their competitiveness in the job market.

4. ACTIVITIES

Activities in the Training Centre will include:

1. Counselling: The young mothers and youth will be offered counselling at the initial coming to the center.
2. Vocational Education as the core course: While living at the center, they will study Tailoring, cosmetology, bakery, building and welding.
3. Other subjects of study will be financial management, parenting, life skills and spiritual empowerment lessons.
4. Practicum at a reputable company or job and follow up of students at their work places

5. SUSTAINABILITY

Our sustainability plan for the future is in the selling of most of the items made by the students at the training center, to generate funds to help support the center. The ministry has also planted some items in our gardens to help meet the feeding requirements of the students at the center.

6. BUDGET

The project needs \$62,000 (UGX 232,500,000) for building a Training Centre for young mothers and youth in Wakiso District.

7. CONCLUSION

This is a great opportunity for us to help these young people, be a vital part in this transformation of lives. Your gift and prayers of any amount will make a great transformation in the lives of the young people. Your partnership with us is a great treasure. **WOULD YOU CONSIDR PARTNERING WITH US TODAY?
