

YOUTH FOR CHRIST

Message from Team Leader

Dear our Friends and Partners, the students are progressing well in their studies. They have all improved in their tailoring, interpersonal skills and knowledge about God. They are excited to graduate this December and start income generating activities. Six have committed their lives to the Lord. Thank you so much for blessing them. Because of you, they will have a better future.
Miriam Koote

Stories of Changed Lives

Shamirah struggled with bitterness in her heart but through devotional classes, she has learnt forgiveness and to believe God in hard times and to relate with others. Financial Management knowledge has helped her to know how to raise starting capital for her business and to manage it when she goes back home.

Mirembe girls and the Board Members

Hafuswa

Hafuswa had totally lost hope and hated herself. She cried most of her time and did not want to associate with people but through on going counseling and discipleship classes, she has put her trust in the Lord, relate freely with other, manage stress and believe in herself for a bright future. Her self-esteem has also improved and she is now living a happy life.

YFCU BOD visit

Brenda is a girl who had low self-esteem and could not express herself freely. Through communication skills, she is able to speak for herself, make decisions on her own, practice personal hygiene and do things on time. The knowledge of financial management has enabled her to make a budget for whatever small money she gets and spare some for saving. She says her future will be bright.

Suubi house girls with some of the clothes they have made

Zam grew up in a Moslem family which didn't give her chance to know about Christ but through discipleship and devotional classes, she has known Christ and accepted him as her lord and savior. Her hope has been restored through words of encouragement and scriptures. She learnt how to take care of her baby and the impact of speaking words of hope to the life of her baby through parenting classes. She has developed confidence in herself which will help her to raise money for her business.
