

DIRECTORS' MESSAGE

STORY OF A CHANGED LIFE

Dear our Partners,
Merry Christmas! Together, we have been a blessing to many young people in schools, communities, Mirembe House and Suubi Vocational Training Centre. Your Generosity this year is greatly appreciated and we are looking forward to partner with you next year to bless many young people with the gospel.
Miriam Koote

Patricia (19 years) is a young mother. She graduated on the 15th-September-2023 in Tailoring. After graduation, she went back home to her parents where she started working a month later. Her Mother informed us that she is progressing steadily. She starts with domestic work up 9:00am and thereafter starts sewing at 10:00am. She makes dresses for both young and older people, God has blessed her with customers and earns over \$8 on a good day. She has a saving box at home where she drops in at least \$1 daily. When need arises at home for domestic supplies, she is happy to chip in. She is also able to provide for herself and her son with basic needs. Her mother says, her daughter's life has changed and she is happy in life. Patricia and the Family Members are thankful to the Almighty God, to you, our Partners and YFC Uganda for blessing and transforming their lives.
